

Appln. No. 09/717,767

Attorney Docket No. 5709-159

II. Listing of Claims

1. (Currently Amended): A two piece weatherstrip for a motor vehicle comprising, in combination,

a cover including a first flange portion, a second flange portion and a centrally disposed web, said first and second flange portions defining an outer surface,

a body including a first slot and an adjacent first face and ~~a second an adjacent, oppositely disposed second slot and an adjacent second face~~, one of said slots adapted to receive said web and ~~another of said slots~~ second slot adapted to receive a flange of said motor vehicle, at least one wiper flange extending from said first face, a flexible flange adapted to engage a portion of said motor vehicle and a recess ~~adjacent~~ between said flexible flange and said second face for receiving a portion of one of said flange portions of said cover.

2. (Currently Amended): The two piece weatherstrip of Claim 1 wherein said one of said flange portions defines a radiused end and said recess of said body ~~defines a~~ is complementarily radiused recess.

3. (Original): The two piece weatherstrip of Claim 1 further including flocking disposed on said at least one wiper flange.

4. (Original): The two piece weatherstrip of Claim 1 including at least two wiper flanges.

5. (Cancelled):

6. (Original): The two piece weatherstrip of Claim 1 wherein said body further includes an S-shaped metal insert.

7. (Original): The two piece weatherstrip of Claim 1 wherein said body includes pluralities of obliquely disposed webs in said slots.

8. (Original): The two piece weatherstrip of Claim 1 wherein said centrally disposed web of said cover includes an asymmetrical notch.
